## Fruits and Vegetables and the Risk of Breast Cancer

### Bibliography

This bibliography is provided as a service to our readers. It is compiled from the entries in the [BCERF Environmental Risk Factors Bibliographic Database](#).

This bibliography is arranged topically. The topics include:

- [Review articles on the influence of fruits and vegetables on cancer risk](#)
- [Review articles on the influence of fruits and vegetables on breast cancer risk](#)
- [Original epidemiologic studies](#)
- [Cohort studies](#)
- [Case-control studies](#)
- [Articles on nutritional supplement use](#)
- [Articles on vegetarian diets](#)
- [Studies on the influence of fruits and vegetables on breast cancer survival](#)
- [Studies on the mechanisms underlying the influence of fruits and vegetables on breast cancer risk](#)

---

#### Reviews on the influence of fruits and vegetables on cancer risk

Adlercreutz, H. (1998). Evolution, nutrition, intestinal microflora, and prevention of cancer: a hypothesis. *Proceedings of the Society for Experimental Biology and Medicine* 217, 241-246.

Bal, D. G., and Forester, S. B. (1992). Dietary strategies for cancer prevention. *Cancer* 72, 1005-1010.

Beecher, C. W. W. (1994). Cancer preventive properties of varieties of *Brassica oleracea*: a review. *American Journal of Clinical Nutrition* 59, 1166S-1170S.
